10:00 Individual meetings with IPB supervisors and ICM students (all day).

**IPB ICM history and impact. Global models for double diploma and research cooperation.** Tuesday, May 14th, 14:30, ESTiG Library

An overview of the IPB double diploma international platform within the Erasmus International Credit Mobility (ICM) action: the partners, the degree programmes, the fluxes. WHY double diploma? Impact for students, teachers, researchers and institutions. And HOW? The foundations of the Bologna spirit: transparent, flexible and strategic recognition of credits and competences. Flexible global models for double diploma involving bachelor and master programmes. Double diploma as a unique opportunity for research cooperation.

**Double diploma opportunities and results: parallel meetings with IPB course directors and head of departments.** Wednesday, May 15th, 14:30

IPB course directors, head of departments and researchers will meet ICM partners' representatives, according to their profiles ("Group"). IPB will present the study plans of the bachelor and master programmes used in double diploma student mobility, and the interests in research cooperation. The workshop will address the double diploma models with ICM partners and the co-supervision of master dissertations of ICM students as a unique opportunity for research cooperation.

**Individual meetings with IPB supervisors and ICM students.** Thursday, May 16th and Friday, May 17th

The IPB ICM project and the double diploma international platform is an important opportunity for research cooperation and funding. IPB professors/researchers will meet ICM partners' representatives for individual meetings, particularly the ones that are currently co-supervising ICM master students. ICM students currently at IPB for double diploma will also attend the meetings. Altogether, will identify common and complementary interests and competencies and how the ICM double diploma student mobility, as well as future ICM staff/research mobility, can be used to promote joint R&D activities and new opportunities for funding.
