NOTES:

Research workshops*: The success of the Double Diploma programme requires the promotion of a deep cooperation between the teachers and researchers of both institutions, through the co-supervision of master students, and the participation in their training. We invite our partners to prepare a PowerPoint presentation of the research interests of their colleagues (institution) in the area. One teacher of IPB will do the same on our side. The objective is to know better our research interests and to promote the matching of co-supervisors for future students in DD at IPB. Please prepare a PowerPoint presentation of 5-10 minutes (one for each institution/area).
